PROJECTS

Career Glide | *ReactJS, Gemini, Clerk* | Link
- Developed an **AI-Powered Career and Internship Platform for Holistic Graduate Employment Support platform**.
- Developed an intuitive, responsive **resume builder** using **React.js** to streamline resume creation for fresh graduates.
- Implemented **Python-based resume ranking algorithms** to match candidates with suitable job listings based on skill relevance and experience.
- Built an **AI-powered Resume Analyzer** that evaluates multiple resumes
- Integrated an inbuilt **video meet area** for conducting group interviews and collaborative mock sessions within the platform.
